START HERE

APP PAGE: Home · Choose your next step

One person. One useful next step.

Choose what fits

Plan time outdoors • Found a tick • Need care or support

Choose your reading detail

Quick and easy for short steps. More detail for extra explanations.

Keep it manageable

You do not need to complete every page.

PREVENTION

APP PAGE: Learn & Prevent

Prepare before heading outdoors.

Plan your visit

Enter your destination, month and outdoor activity.

Build a prevention plan

Review practical steps to help prevent tick bites.

Take it with you

Create and download your outdoor preparation plan.

AFTER A TICK BITE

APP PAGE: Tick Bite: What Next?

Found a tick? Find your next step.

Remove it promptly

Follow tick-removal instructions.

Record what happened

Keep track of the location, dates and symptoms you notice.

Know when to seek care

Review guidance on when to contact a clinician. Do not wait for tick-testing results.

FIND AFFORDABLE CARE

APP PAGE: Care & Support · Find care

No insurance? Start with questions.

Find a starting point

Explore community health centers and care-access resources.

Prepare what to ask

Income-based fees • Coverage • Hospital financial assistance

Confirm with the provider

Ask about services, costs and language support.

LANGUAGE & AI

APP PAGE: Care & Support · Tell us what happened

Your words. Your preferred language.

Write naturally

Use your preferred language—or mix languages and English place names.

Choose AI assistance

With permission, AI helps organize an English summary beside the original.

Review before sharing

Check and correct the result. AI does not replace a qualified medical interpreter.

A RECORD YOU CAN USE

APP PAGE: Care & Support · Visit summary

Review. Correct. Download.

Find the important details

Exposure → Symptoms → Tests → Care received

Keep dates clear

Symptom onset and diagnosis delay stay separate. Unknown details stay unknown.

Download my visit summary

Bring the PDF alongside original test reports. Keep your download for future support conversations.

PRACTICAL SUPPORT

APP PAGE: Care & Support · Benefits and resources

Prepare for support conversations.

Explore available resources

Disability benefits • Food • Housing • Transport • Medical bills

Organize your experience

Keep dated records of symptoms, treatment and daily limitations.

Save for future use

Download and keep your records. Each program determines eligibility; preparation is not an application.

HOUSEHOLD BURDEN

APP PAGE: Care & Support · Costs and time

More than a medical bill.

Money paid

$180 care + $45 travel = $225

Work and caregiving

3 missed workdays • 8 unpaid caregiving hours

Keep the distinction clear

Days and hours remain separate from cash payments. All figures here are fictional.

COMMUNITY EVIDENCE

APP PAGE: Community Burden & Action

Make burden visible—and interpretable.

Federal and state open data

CDC • Census • HRSA • CMS • New York Lyme surveillance

A transparent illustration

Dutchess: 1,060 reported cases in 2024 × $2,032 = approximately $2.15 million

Know what it represents

Hook study mean, in 2016 dollars. An illustration—not measured county spending. Medicare context is separate and not Lyme-specific.

FROM PATIENT TO COMMUNITY

APP PAGE: What’s next · Proposed partnership pilot

Prepared families. Informed communities.

Connect people with support

Counties could introduce PathwayAI on websites and at local events.

Listen with consent

Future secure reporting could identify unmet needs. Personal entries do not automatically become county evidence.

Evaluate and improve

Seek partners to test useful summaries and support connections. Feedback has shaped the app; English-, Mandarin- and Spanish-speaking testers have been invited.
