THE PROBLEM

APP PAGE: Opening story

Then it became personal.

A CHANGE AT HOME

Job loss. Lost insurance. The next month, a tick bite and Lyme disease.

A REASON TO BUILD

Helping people prepare for care when language, bills and uncertainty stand in the way.

Yuwei Zhang · Background in pathology and epidemiology

THE PROBLEM

PathwayAI: Making the Hidden Patient Journey Visible—and Actionable

THE PROBLEM

APP PAGE: Start Page → Choose a pathway

The burden is bigger than a medical bill.

FINDING CARE

Where can I start without insurance?

UNDERSTANDING

How do I explain symptoms and tests?

WORK AND FAMILY

What time and unpaid help does illness take?

A PRACTICAL NEXT STEP

Prevention. Timely care. Support conversations.

FROM INFORMATION TO ACTION

PathwayAI: Making the Hidden Patient Journey Visible—and Actionable

FROM INFORMATION TO ACTION

APP PAGE: Care & Support → Find care or help with bills

Without insurance, where do you start?

COMMUNITY HEALTH CENTERS

Ask about appointments and income-based fees.

COVERAGE QUESTIONS

Find a starting point after losing insurance.

MEDICAL BILLS

Ask about hospital financial assistance and payment options.

Practical starting points. Care is not automatically free; availability and eligibility must be confirmed.

FROM INFORMATION TO ACTION

APP PAGE: Tick Bite / Care & Support → Tell us what happened

Your words. A reviewed English summary.

WRITE COMFORTABLY

Use your preferred language. Mixed-language notes are welcome.

CHOOSE WHETHER TO USE AI

External organization and translation require explicit permission.

REVIEW BEFORE SHARING

Check the English beside the original. Keep dates, results and uncertainty.

Optional AI workflow, not a live AI output from this demo. It does not replace a qualified medical interpreter.

FROM INFORMATION TO ACTION

APP PAGE: Care & Support → Costs, time and visit summary

A personal record of money and time.

PAYMENTS RECORDED

$225

Care $180 + travel $45

WORK MISSED

3 days

Recorded separately from money paid.

UNPAID FAMILY HELP

8 hours

Caregiving time in its own units.

Review → Correct → Download the PDF

Fictional patient example. This demonstration uses the local English organizer with external AI off.

UNDERSTANDING THE HIDDEN BURDEN

PathwayAI: Making the Hidden Patient Journey Visible—and Actionable

UNDERSTANDING THE HIDDEN BURDEN

APP PAGE: Community Burden & Action → County comparison

What can local evidence tell us?

DUTCHESS

355.5

Reported Lyme cases per 100,000 residents · 2024

ORANGE

237.0

Reported Lyme cases per 100,000 residents · 2024

DIFFERENT QUESTIONS

Disease patterns.
Population context.
Healthcare resources.

Published Lyme costs: planning illustrations

CMS Medicare payments: separate, all-condition context

Rates: NYSDOH 2024. Federal context: CDC (including PLACES), Census, HRSA and CMS. Source years differ.

FROM INFORMATION TO ACTION

APP PAGE: Community Burden & Action → Patient Voices → Community Action

How can a county team respond?

THE NEED

Reaching care without insurance or language support.

A POSSIBLE ACTION

A small care-navigation pilot using existing services.

PARTNERS AND RESOURCES

Confirm contacts, staffing, eligibility and funding.

A BRIEF TO ASSESS

Connect a reported barrier with a proposal and follow-up.

FROM INFORMATION TO ACTION

APP PAGE: Community Burden & Action → Planning brief

Measure whether support reaches people.

REFERRALS

Were referrals completed?

APPOINTMENTS

Did people reach care?

ASSISTANCE

Was support received?

UNRESOLVED NEEDS

What barriers remain?

Proposed evaluation. Shared storage is disabled in this demo; personal entries do not automatically become county evidence.

WHAT COMES NEXT

APP PAGE: What’s next → Pilot and development priorities

Test with people. Build with partners.

TEST USEFULNESS

Can people find support and prepare a useful summary across languages?

REVIEW GUIDANCE

Work with qualified advisers on disability benefits and food assistance.

STRENGTHEN EVIDENCE

Verify medication prices and develop secure, consent-based follow-up.

Current preparation tools are available. Proposed free patient access through grants and community partnerships.

WHY IT MATTERS

APP PAGE: Live app → Share feedback / What’s next

Help people find support when they need it.

Patients. Caregivers. Health centers.
Care navigators. Community partners.

Help us test usefulness and support connections.
